

AMARDEEP RANA

Java Full Stack Developer

Bengaluru, Karnataka

☎ +91- 9031950845 ✉ amardeeprana2905@gmail.com 🌐 amardeeprana29 📁 amardeeprana29 📁 My Portfolio

EDUCATION

University College Of Engineering And Technology, VBU, Hazaribag

B.Tech in Information Technology – CGPA: 7.58 (First Division with Distinction)

S.L. Arya Inter College

Senior Secondary (XII) - Science - Percentage - 75.4%

College Leadership & Activities

- National Cadet Corps (NCC) – Rank: Corporal (CPL)
- Successfully qualified the NCC 'C' Certificate Examination.
- Participated in NCC camps, parades, drills, and leadership activities.
- Developed leadership, discipline, teamwork, responsibility, and communication skills through NCC training.

TECHNICAL SKILLS : JAVA FULL STACK

Programming Languages : Java (Core) , JavaScript (ES6+) , SQL , HTML5 , CSS3 , C

Backend :

Core Java : Object-Oriented Programming (OOP) , Collections Framework , Exception Handling , Multithreading Basics , Java 8 Features (Lambda Expressions , Stream API) , File Handling and Basic Data Structures.

JDBC : Database Connectivity using JDBC.

Hibernate : Hibernate ORM Framework , Entity Mapping , HQ , CRUD Operations using Hibernate.

Spring/REST APIs : Spring Boot Application Development , RESTful API Development , Spring MVC Architecture , Spring Data JPA , Dependency Injection and Bean Management , CRUD Operations , Exception Handling , API Testing using Postman.

Database :

Oracle SQL : CRUD Operations, Joins and Relationships , Aggregate Functions , Subqueries, Database Design Fundamentals.

MongoDB : NoSQL Concepts , CRUD Operations , Collection and Document Handling.

Frontend :

JavaScript : DOM Manipulation , Event Handling , ES6+ Features.

React.js : Components and Props, React Hooks , State Management , REST API Integration , React Router , Responsive UI Development.

Developer Tools :

Git Version Control System , Branching and Merging , GitHub Repository Management , Push , Pull and Commit Operations.

Maven Dependency Management using Maven.

Jenkins CI/CD Basics , Build Automation , Jenkins Pipeline Basics.

AI Skills :

Experienced in AI-assisted software development using ChatGPT, Google AI Studio, Gemini AI, GitHub Copilot, Prompt Engineering, and other LLM-based coding assistants to build and enhance 20+ software projects.

TRAINING

Java Full Stack Development Trainee

Apr 2026 – Present

JSpiders, BTM Layout, Bengaluru

- Learning Core Java, Advanced Java, JDBC, Hibernate, Spring Boot, SQL, JavaScript and React.js.
- Building real-world full stack applications and strengthening problem-solving skills.
- Gaining hands-on experience with industry-standard development practices and tools.

PROJECTS

Smart Library [↗](#)

- Developed a full-stack Library Management System to manage books, users, borrowing records, fines, and authentication.
- Implemented secure JWT Authentication, role-based authorization, CRUD operations, search, filtering, and responsive dashboards.
- Designed RESTful APIs and integrated MongoDB for efficient data storage and retrieval.
- Focused on building a scalable, user-friendly, and responsive web application following modern development practices.

Backend Technologies Used : MongoDB, Express.js, Node.js, JWT Authentication, REST APIs. **Frontend Technologies Used :** React.js, JavaScript (ES6+), HTML5, CSS3

Crowd-Sourced Disaster Management System [↗](#)

- Built a real-time disaster reporting platform that allows users to report incidents with live location tracking.
- Integrated Google Maps API and Firebase to display disaster locations and synchronize reports in real time.
- Improved communication between affected users, volunteers, and authorities through an interactive map interface.
- Designed a responsive user interface to ensure accessibility across desktop and mobile devices.

Backend Technologies Used : Firebase

Frontend Technologies Used : React.js, JavaScript, Google Maps API, HTML5, CSS3

EXPERIENCE

IT Intern — Steel Authority of India Limited (SAIL)

Sep 2025 – Nov 2025

- Observed enterprise-level IT operations and software development workflows within a large industrial environment.
- Gained practical exposure to database management, system monitoring, networking, and IT infrastructure.
- Learned software development life cycle (SDLC), industrial IT processes, and collaboration with experienced engineers.

CERTIFICATIONS

- Frontend Web Development – Udemy
- Git and GitHub – Udemy
- IT Internship Certificate – Steel Authority of India Limited (SAIL)
- Frontend Development Internship – MotionCut (AICTE Certified)
- NCC 'C' Certificate – Ministry of Defence

Hobbies & Extra Details

- **Hobbies:** Learning New Technologies, Building Personal Projects, Exercise & Fitness, Traveling, Community Service.
- **Languages Known:** English, Hindi.
- **Core Values:** Discipline, Integrity, Continuous Learning, and Contributing to Nation Building.
